

# "The full Package"

At Harcourts Grenadier we have a dedicated Business Broking team working in the heart of Christchurch city. With adversity comes opportunities. We have the systems, reach and capability to make the difference.

In addition to our business expertise we also offer the full spectrum, of real estate services, from residential to rural lifestyle to commercial. We are the large project specialists and are renown for leading the market in selling at auction.

The core advantages the Business Brokering team has, is it works as a team. When one Broker has a business to sell we all gather our resources to help attain that sale, we come together and combine our experiences and our networks to attain the best possible outcomes. We have an open file policy where every listing is treated openly and transparently. The older more experienced brokers are keen to pass on their knowledge to the new recruits, which fosters a friendly and fun environment to work in.
